

## HDC Discover 2.04 Release Notes

These release notes contain supplemental information about Version 2.04 of HDC Discover. Please don't hesitate to contact our support email [support@hdcbc.ca](mailto:support@hdcbc.ca) should you have any questions or comments about any of these changes.

### What's new?

This release includes concept changes and enhances support for the Telus Wolf EMR. Please note, data for these changes will be available gradually over Q4 2019.

### Concept Changes

We are replacing two concepts related to alcohol use in HDC Discover, "Alcohol Dependence" and "Unsafe Alcohol Use". Both are being replaced by a bigger umbrella as "Alcohol Use Disorder".

Alcohol Use Disorder includes these listed ICD9 codes:

30300	Acute alcoholic intoxication in alcoholism, unspecified
30301	Acute alcoholic intoxication in alcoholism, continuous
30302	Acute alcoholic intoxication in alcoholism, episodic
30390	Other and unspecified alcohol dependence, unspecified
30391	Other and unspecified alcohol dependence, continuous
30392	Other and unspecified alcohol dependence, episodic
30500	Alcohol abuse, unspecified
30501	Alcohol abuse, continuous
30502	Alcohol abuse, episodic

Consequently, we are retiring three measures and replacing them as listed below:

Legacy measure	Replaced by
Alcohol Dependence Syndrome Prevalence	Alcohol Use Disorder Prevalence
Unsafe alcohol use - visit in last yr age 12-19	Alcohol Use Disorder and visit in last year age 12-19
Unsafe alcohol use-visit in last yr age >19	Alcohol Use Disorder and visit in last year age >19
